Leaders in Construction — Oil and Gas is based on the most active general contractors, October 2010 to October 2011, as defined by information contained in Reed Construction Data, Canada's database. Supplementary information was gathered through a comprehensive questionnaire sent to more than 300 construction firms across Canada. Participation in the survey process was voluntary. Gross revenues reported in questionnaire responses are included in the listings. In the absence of a response to the questionnaire, a profile was created using Reed Construction Data, Canada's project news data. To be included in the distribution of the questionnaire for the 2012 edition of Leaders, please email [research.canada@reedbusiness.com](mailto:research.canada@reedbusiness.com) or call 1-800-387-0213.
